
2 PLAYERS : A AND B
Each players would be given : 2 cruisers, 2 destroyers and 1 battleship

START :

2 PLAYER WOULD IN TURN START TO INPUT THEIR SHIPS' POSITIONS, AND NO PLAYER CAN KNOW THEIR OPPONENT'S INPUT.

PLAYER A OPEN FIRE FIRST
AND THEN PLAYER B AND SO ON
(game loop)

- Use 2D Vector

- 2 Ways to fire :

Either a normal gun shot or by launching a torpedo

- A gun shot from the main guns would impact 1 unit of area. Whereas, a torpedo can go on a straight line all across the map.

- A gun shot is fired in each turn by 1 player.

- Torpedo launch would be spontaneous/ unpredictable

- Gunshot → can only disable 1 compartment of the ship/ a Torpedo hit→ instant elimination of the ship that has been hit

- A hit from main gun → would be an ‘O’ on where the bullet landed
- A miss → ‘X’ → disappears after each turn

Cruiser : 2 cells on the map

Destroyer : 3 cells on the map

Battleship : 2x2 cells on the map
